Residents within the Merriman Separation Project area,

As part of the Merriman Separation – Green Project (Rack 36) Project, dye water testing was performed to identify homes with clean water connections to the existing combined sewer system. Separation of the combined sewer system requires clean water connections to be removed and redirected.

Property owners should have received a letter in the mail along with a report of the test results. The City of Akron and Black & Veatch are requesting meetings with affected residents (see list below) to discuss your dye testing results and a proposed plan for disconnection.

The City will pay for the work that is required for the disconnection and it will be completed by the City’s contractor under the sewer separation project.

Available dates and times are shown below, grouped by location; please select a date and time that is convenient for you and your family in the group that your address is listed by marking the box with an X. Appointments will fill up quickly, so selecting alternate choices is recommended. Please note your alternate choice with an A.

Please email or call Janel Simpson with Black & Veatch at [SimpsonJ@bv.com](mailto:SimpsonJ@bv.com) or (330) 253.6890 to schedule a time for us to come to your home to discuss the options for your property. If you have any questions, please feel free to call Dianne Sumego with Black & Veatch at (330) 607-5619. Thank you!
