Akron, Ohio (September 12, 2014) - The City of Akron's Drinking Water Supply Bureau is proud to announce it has been presented with the **Water Fluoridation Quality Award** from the Centers for Disease Control and Prevention (CDC). This award recognizes Akron for its consistent and professional adjustment of the water fluoride content for 12 consecutive months to Akron's 280,000 drinking water customers.

Consistent, high quality water fluoridation practice, as demonstrated by Akron is a safe and effective method to prevent tooth decay, improving oral health of community residents of all ages. Community water fluoridation has been recognized by the CDC as one of ten great public health achievements of the 20th century.

The Akron Water Supply Bureau provides approximately 35 million gallons a day of drinking water to customers throughout the City of Akron and many neighboring communities. If you have any additional questions, please visit the Akron Water website at www.akronohio.gov/water or call (330) 678-0077.
